

**FOR IMMEDIATE RELEASE: 25 March 2021**

**Saminco International Receives Accreditation for ISO 9001:2015**

**Fort Myers, FL:** Saminco International has been recognized again with the ISO 9001:2015 certification for Quality Management System in the design and manufacture of electric traction drives and battery chargers for the mining and rail industry. This is a continuing commitment to the Quality Management System, first begun in 2019. We greatly appreciate the dedication of our employees who work diligently to consistently maintain strict protocols for quality systems in all our procedures. It is a commitment from all Saminco departments to continue seeking ways to improve what we do and how we do it.

ISO 9001, as designated by the International Organization for Standardization (ISO), is defined as the international standard that specifies the requirements for a Quality Management System (QMS). It is used by organizations to demonstrate the ability to consistently provide products and services that meet customer and regulatory requirements. Saminco's mission is "to create delighted customers by providing exceptional products and service" and is what has constantly pushed and inspired this organization to improve their products and processes.

**About Saminco International:** Saminco has been a leading innovator in the design and manufacture of electric propulsion drives for off-road vehicles since 1992. The company started in the coal mining industry and has expanded into hard rock mining and other applications. Saminco International offers quality built products with full service and support, with offices in the US and South Africa, and partners in Australia and Poland.
