Re: Saminco Q750 Drive Overload Testing

Dear Mr. Deweese:

This letter is a confirmation that testing was performed on the Q750 Overload on March 4, 2009 at Saminco in Lavalette, WV. The purpose of the tests were to determine the performance of the Q750 electronic overload for suitability for use as a component in equipment used in Pennsylvania underground coal mines.

Based on the tests performed on March 4, 2009, **the Q750 Drive Overload is approved** for use as a component in mining equipment that will be utilized in Pennsylvania underground coal mines.

Sincerely,

Michael T. McCaffrey  
Electrical Engineer Supervisor 2  
Bureau of Mine Safety
